Experience

2020 - Present

ClearCourse / EKM | Evolution House Caxton Road Preston Lancashire PR2 9ZB

Front-End Developer (UI/UX)

EKM (www.ekm.com) is an online E-Commerce SAAS product targeted at businesses who want to scale their online presence.

Key Responsibilities

- Maintaining existing themes within the platform composed of in-house shortcode tags to deliver data to the web pages such as Product information.
- Developed a new theme that was coded in both Liquid (Shopify) & EKM Tags to create a new editing experience for the clients.
- Designed the architecture for new EKM tags which were used for new features of the platform, eg: Adding Subscription Payments to Themes.
- Developed and code reviewed React components and used them to build a new backend UI for the platform.
- Collaborated closely with the design team to test and review design concepts, iterating through them before implementing new features into our public labs area.
- Worked closely with the design team testing and reviewing design concepts and iterating through them before adding new features to our public labs area.
- Held multiple meetings with various stakeholders to help drive the future of how themes were used at EKM.
- Assisted junior front-end developers within my team with complex bugs/tickets and supported them with their personal development.

2016 - 2020

TX Group / Nuttersons | 3-5 St John St, Manchester M3 4DN

Web Developer

Nuttersons (www.nuttersons.co.uk) is a digital agency that develops and maintains websites private healthcare websites for the parent company TX Group.

Key Responsibilities

- Developing and maintaining our clients' websites using various web technologies to create robust and performant websites.
- Converting mock-ups into fully-fledged responsive websites.
- Maintaining & updating existing websites for the company.
- Meeting with clients and discussing their objectives and goals for the website.
- Liaising with the design team and discussing possible design choices based on clients' needs.
- Keeping a close relationship with multiple clients and responding to emails and phone calls
- Designed webpages and sites for continuous improvement in a fast-paced environment.
